TUESDAY MARCH 19, 2024

1 PM MST | COALDALE, ALBERTA

156 RED & BLACK ANGUS BULLS

WELCOME

TO THE U2 CONNECTION

Dear Friends,

We would like to welcome you all to join us for our Annual Bull Sale on Tuesday, March 19, 2024 at the Ranch. We are beyond grateful for the confidence you have placed in our breeding program and humbled by the support we have received by all our loyal customers, friends and family over the years.

Our goals have not changed and our belief that a superior, continually evolving cowherd is the key to provide you with bulls stacked with generations of beneficial genetics to improve your bottom line and set your cowherd apart. Nothing is more rewarding than listening to customer feedback on the bulls, their progeny, and the impact the genetics have had long term.

Your support has enabled us to do what we love and aggressively use all avenues to make better cattle and reach higher goals. Improving genetic quality is a never-ending journey and we have been working very hard and investing abundant time and resources to develop cutting edge reliable genetics to keep our customers at the forefront of the industry!

The 2024 line up has our excitement levels high as we believe our disciplined breeding program and aggressive embryo transfer efforts are on full display in this offering! There is no substitute for using superior proven cows through embryo transplant to provide large sire groups of half and full brothers so the commercial customers of all budgets have access to nearly every mating.

The cattle market is red hot and most producers predict even better times are ahead of us. We are excited about the industry and always enjoy a visit with fellow cattlemen and women. Our goal has always been to build lasting relationships and make your experience be so much more than buying a bull! Like always we will let the bulls speak for themselves and encourage everyone to come out to the ranch ahead of time to view the bulls in their large pens, and most importantly we want you to see the cows behind them. If we can be of any assistance in any way, please don't hesitate to contact us. We are all in the business together and take being your genetic supplier very seriously. We realize that we have no success without your success and look forward to meeting and working with you!

Hope to see you soon!

SIGHT UNSEEN PURCHASE GUARANTEE

If you are unable to attend the sale, we have "Sight Unseen Purchase Plan" that is very popular and satisfaction guaranteed. We will gladly visit with you to discuss your bull requirements and together, choose bulls that meet those needs. If you are not satisfied upon delivery, you don't own the bull.

USA EXCHANGE

USA customers have a buyers advantage due to a weak Canadian dollar. Exchange rate will be announced on sale morning.

TERMS & CONDITIONS

Cattle will sell under the standard terms & conditions put forward from the breed association. These are available upon request. U2 Connection is keeping in herd semen interest and has the right to collect any bull in the sale at buyers convenience and our expense.

MONDAY MAR. 18

-View the bulls all day followed by a meal & sale social

TUESDAY MAR. 19

10:30AM - BRUNCH

1:00PM - SALE TIME

-Steak dinner immediately following the sale

WELCOME FROM BOHRSON MARKETING SERVICES LTD.

Welcome to the 2024 U2 Connection Bull Sale. We are pleased to invite you all on behalf of the Unger & Vancuren families to their annual bull sale. "Your herd bull headquarters" is such a fitting slogan for this event as year in and year out we see top notch commercial and papered outfits across Canada, USA and Mexico come to source their purchases here. The breeding philosophy here is simple, build around big time cows, utilize consistent and proven genetics and stand behind them 100%. That would best describe what you get when you choose to do business with the U2Q and Sunberry Valley programs. Their dedication to not only enhancing their own programs, but enhancing their customers programs in doing so is very evident and each and every year, they somehow find a way to grab a new gear and offer a bigger and better set of bulls. This 2024 offering is no exception. The red bulls are based around years of strict breeding decisions and are backed by an outstanding set of cows. These bulls are athletic, stout made, easy doing individuals that are geared for all aspects of the industry. From power performance bulls, to sleek calving ease bulls, you will find all you need and then some as you sort through this impressive set of Red and Black Angus. We are always so impressed as we attend the U2 Connection Bull Sale each spring for the loyal following of customers that show up to buy the cattle on offer. We feel it speaks so highly to not only the product, but of course the people behind the programs. Cole, Tia & family along with Darren & Carol are among some of the very best folks to do business with as they are honest, hard working and full of integrity. Just like the cattle. We cannot endorse the U2Q and Sunberry Valley breeding programs enough and know that if you haven't done business here before or attended the sale, you will be very excited once you do. In saying that, consider this your personal invitation to tour the bull pens at the U2Q Ranch anytime leading up to sale day and be sure to come back on March 19th to take in this deep set of cattle. Give Cole, Darren or any of us listed from BMS a shout to discuss the bulls and your own operation as we would be happy to assist in your next purchases. We are very familiar with both programs and would be proud to represent your absentee bidding and buying needs sale day in a professional manner. We hope to see you on sale day.

Best regards,

The Bohrson Marketing Team

WELCOME FROM T BAR C CATTLE CO. LTD.

It is with great honour that all of us at T Bar C welcome you to the U2 Connection Bull Sale, and stand alongside two instrumental forces in the cattle business as they market their fantastic set of Angus bulls. Not only has the U2Q and Sunberry prefixes become synonymous with some of the most impressive individuals in the breed today, but the Unger and Vancuren families continue to be aggressive in the best sense of the word on the never-ending quest of enhancing quality, and relentless on their search across North America to infuse positive traits into their already world-renowned cow herd. The fresh perspective and progressive mindset these two families bring to the industry is refreshing, the cattle are monumental, and the service unparalleled!

The U2 Connection gains notoriety year after year from astute purebred and commercial cattlemen and women alike, and it only takes a brief analysis of these pages to see why these programs not only gain that respect and confidence, but maintain it. The sire groups you see here feature many 1/2, 3/4 and full brothers; leading to the impressive consistency and uniformity you see across such a high volume of numbers. I am confident that no matter what sort of demand you are looking to fill on your own operation as you are bull buying, you will find a lot here that not only fits your criteria, but exceeds your demands and expectations. The offering is as naturally thick, three-dimensional, and contains as much presence and balance in their makeup as any, with the structural integrity and supreme foot quality that ensures longevity. As we toured the offering in January, we took special notice and appreciation of the way these bulls are managed, ran in large pens where they have the opportunity to move and live like cattle!

These programs are ran on the understanding that fads and the hottest new trend are neat to observe, but that they are not to be followed as it is knowing what is proven and stacking it on itself to build genetics that are predictable and can work in whatever environment they are thrown into that makes customers profitable, and the herd at home at it's best. I would strongly advise you to take a tour through the world-class dams behind these bulls if you need any further proof that this mindset has done its job. While we continue to see the long-awaited rewards in the feeder market, we know that margins in this business only continue to tighten. It has never been more paramount to purchase herd sires that offer not only the traits you require in as high quality capacity as possible, but also from proven, reputable, and customer-focused breeders. Cole, Darren, and their families are cattle people at heart and make their living from their product, and as such know the needs of their customer and that repeat business benefits everyone. Therefore, the service and guarantee offered here is as elite as you will find at the 'herdbull headquarters'

We are greatly looking forward to hosting you at the U2Q Ranch North East of Coaldale, and truly feel that this will be one of the most fundamentally exceptional groups of red and black Angus genetics to sell this Spring. As you consider where to invest in your breeding stock it is clear the phenotypic quality and genetic merit of these bulls is top notch, but more importantly know that you are tying into outfits here that have proven their commitment to the success of their customer time and time again. All of us at T Bar C have gone through the offering, and are very knowledgeable regarding this bottom-line propelling group of bulls. Please don't hesitate to reach out with any questions or assistance!

See you in Coaldale,

T Bar C Cattle Co. Ltd.

WELCOME FROM PETEROSA EXPORTS LTD.

It seems like such a short time ago that Cole and Tia Unger and their young family of U2 Quality Seedstock and Darren and Carol Vancuren of Sunberry Valley Ranch hosted their 1st Annual U2 Connection Bull Sale. Well folks, here we are with the 4th Edition and the quality just keep getting better and better. These dedicated breeders continue to work together to bring you a select set of Red, Black, and Red Factor bulls for you to appraise. Some unique pedigrees with the same common goal in mind, to offer you the best set of quality Angus bulls to suit a variety of programs.

I wondered how they would top last year's offering but here they are. Solid built, good footed, deep and soggy built yet having eye appeal that makes you want to use them in your own programs. Bulls that will fit every program you can imagine. Calving ease to cow bulls, both Red and Black. Take the time to come and evaluate the bulls prior to the sale and talk to Cole and Darren about your needs. They can point you in the right direction with their extensive knowledge of pedigrees and mating's and the dams and sires of these bulls. These bulls are no accident. Years of planning have gone into the mating to create the bull that will work for you.

In my travels both in Canada and abroad I have had the pleasure to see the bulls that have been purchased in this very sale and it is so gratifying to see how well these bulls are working for other breeders and the advancement the U2 Connection Bulls have made in the entire cattle industry, both the Purebred and commercial. I have been through these bulls several times and if you have any questions or cannot attend sale day, please give me a call at 403 828 9815. Will be a pleasure to help you out on March 19. See you in Coaldale.

Sincerely,
Roger Peters

Peterosa Exports Ltd.

WHY A U2 CONNECTION BULL?

1. QUALITY – Top end bulls in volume! We take extreme pride in the fact our sales offering is strong from one end to the other! These bulls are chosen from the utmost top-quality cows we can find to meet your herds furthestmost needs! Bulls that we would not use ourselves do not make the sale!

2. UNIFORMITY – Sire groups of $\frac{1}{2}$, $\frac{3}{4}$, and full brothers by breed leading sires and dams that rank extremely high in fertility, soundness, longevity, structure, fleshing ability and muscle.

3. CALVING EASE – Over the year's customer feedback has taught us the most sought-after bulls combine the traits written above, and calving ease with performance.

4. AFFORDABILITY – Our focus remains the same as it was in the past with serving the commercial cattleman by providing high quality bulls, in volume, at an affordable price range. Whatever your budget is, with this many bulls to select from, you can expect to find a great selection!

5. SERVICE - We specifically keep good quality bulls on hand so in the event that a bull goes down during breeding season, we will have a replacement bull of similar quality available to you on short notice!

6. THE BEST GUARANTEE IN THE BUSINESS – We are customer driven, as this is our whole source of income, and we rely hugely on repeat business. We stand behind our product. If something goes wrong, we will look after you - guaranteed! We want to sell your next generation their bulls!

7. SIGHT UNSEEN PURCHASE PLAN – Although it is great to come before or attend the sale, we understand many producers cannot. For this reason, we have many customers take advantage of this program. Call Cole or Darren with your bull needs and we will be more than happy to visit with you to help with your bull questions and selections and represent you in confidence Sale Day! We stand behind what we recommend. If you are not satisfied upon delivery, then you don't own them!

KNOCKIN' BOOTS was our last natural calf out of the legendary U2 Beauty 113Z and a \$50,000 sale feature in 2020. 113Z's influence around here cannot be overstated and KB is definitely one of the top phenoms we have chosen to carry that influence long into our future with! We are especially excited about the ideal skull shape, foot quality, structural correctness, body mass, muscle shape and hair he puts into all his progeny. Some of last years sons include U2Q Playboy 2197 for \$62,000, U2Q Jonesin' 2366 for \$16,500 and U2Q Boss Hog 2161 for \$26,000. The best part, and to round out the equation, our young KNOCKIN' BOOTS females are EXACTLY what we were hoping for and probably the most desirable we have raised! So get in on these highly predictable and marketable genetics while they are available.

LOT 1-3: A major highlight in the offering, this landmark flush is a recipe for maternal greatness combining two of the greatest breeding pieces produced in the U2 program! Knockin' Boots is a mainstay and major part of our path going forward for many reasons: First and foremost, his daughters are some of the best young cows we have ever been a part of as they demonstrate the femininity, broodiness and udder quality that have set a new standard around here! Secondly, his sons are the right kind - super sound, shapely Herd Bulls with character that lit up last years sale including the \$62,000 Playboy bull to SD, \$16,500 Jonesin' to MRL, and \$26,000 Boss Hog to TJS in Montana. Anexa 439A completes the equation by adding another world class donor to build further confidence and maternal merit! A cow that needs no introduction as her influence has been immeasurable in the industry through both her countless sons and daughters! Help yourself to some of the best genetics we have to offer!

One of the most unique herd bulls we have raised, 60H is a super stylish and fronted, well designed, big ribbed total outcross! Like 64H, 60H is a major league outcross to the red division but we have 428B on the bottom side this time, who is a complete outcross herself, making 60H progeny new treasure to everything in the breed! The daughters of 60H are some of the most angular, big ribbed replacements we have and are making beautiful young cows! We have experienced three seasons of reliable calving ease to add yet another plus in the asset column of this great young bull! Top sons last year include the \$23,000 Chancellor, \$37,500 Kennedy, and \$21,000 Lincoln.

They are consistently sound with exceptional style and an eye-appealing muscle pattern. Their proven and prolific dam 350C is a never-miss donor who has many great sons working for breeders and top commercial cattlemen across the country. Her extremely gentle nature paired with her fleshing-ability, stoutness and near perfect foot structure put her in a league of her own. We have two full sib sisters to these bulls with calves on the ground that are defiantly worth a look! Recommended for heifers or cows

A real world beef bull with a perfect amount of base width, natural thickness, defined muscle shape, massive volume and structural integrity! SUNDANCE carries himself like a Herd Bull with his massive crest and ideal Angus head! His old school pedigree is proven both on top and bottom. His powerhouse dam has tons of body and middle - the kind we're all looking for. He bred naturally his first season as efficient as a three-year-old with awesome results as you will see in his sire group below!

LOT 11: SUNDOWN is a calving ease bull that we have yet to see the likes of, and in all likelihood the stoutest 3Y descendant we have ever seen! He is a phenotypic stunner with style, extraordinary lower quarter shape and a commanding Herd Bull presence. His curve bending birth to weaning performance is remarkable! His dam, U2Q Envious 501J is a beautifully designed Estranged female with the fertility, early age productivity and maternal greatness to become a house hold name. She is backed by a powerfully productive cow family stacked with generations of breed greats including Envious 147X. Sundance 175J was selected for his rare combination of CE, muscle shape, and to add a unique bottom side of the pedigree outcross for most breeders while maintaining the maternal superiority Copenhagen is known for! Unique bulls of this stature with predictable CE and maternal merit don't come around very often! We plan to use SUNDOWN through AI on many Reckoning/Renown/Riff/Recon influenced daughters. Recommended for heifers or cows.

LOT 12: FORT KNOX is another powerful calving ease sensation by Sundance with supreme stoutness, depth and capacity. The consistency in this sire group is truly amazing. His beautiful Full Monte dam is massive bodied with exceptional foot and udder quality. She looks to be following in her donor dams' footsteps showcasing her amazing production potential on her first attempt. The power donor Miss Dynamo 335Y builds further confidence with her +14 CE coupled with an excellent production record including six replacement females and sons to Bar S, Heather Farms, Gouws, Eagle Creek, Randy Geisler and HOV. We think a ton of this loose-hided, sound structured prospect and would like to use him through AI. Recommended for heifers or cows.

LOT 26: There is no better way to kick off this cutting edge sire group than a Herd Bull the calibre of RED LETTER out of a matron as accomplished and influential as Anexa 439A! We consider this dream mating a rich opportunity to combine some of the breeds greatest donor cows and breed leading bulls into one impressive individual. RED LETTER offers a bold, shapely muscle pattern with added length, frame and top in a comprehensive, complete blockbuster package! Anexa 439A's resume is long and impressive with 68 progeny in production in Canada alone with countless milking daughters and top end sons that include Blue Collar, Attractive 72H, Rendition, Territory, Convoy, Cabo, Don Julio, Rocky, President 2450K, Return, Patron and now Red Letter! Take advantage and put these state-of-the-art maternal genetics to work for you!

LOT 27: BRIMSTONE is an extremely sound, predominant breeding piece with blockbuster performance and impressive numbers. He weaned off grass at 930lbs and hasn't slowed down. His extra length, frame and body mass make him a Herd Bull that is right for the industry today!!! His dam is an up and coming great one that may have already outdone herself on her first calf! She is a coveted direct daughter of the legendary donor, Hi Dee Ho 459D, who has her own legacy raising the popular \$39,000 ST Genetics bull U2 Dominion as well as the \$40,000 Bad Medicine. Look to BRIMSTONE for performance endorsed by exceptional maternal power. Recommended for cows.

LOT 28: We admire and strive for the values that 3264 brings to the table. Brownstone 551J was chosen to advance our program due to his distinctive genetics and phenotypic attributes. Anexa 62G is a rockstar donor backed by the iconic 113Z. Individuals with these kinds of credentials that can enter life at a mere 73lbs and rapidly develop into big strappin' herd bulls with added frame and muscle within 12 months of age are truly remarkable. Put these user-friendly potent genetics to work for you! Recommended for well developed heifers or cows.

64H is one of the most exciting herd bulls of the '21 sale season introducing SAV President to the Red Angus breed anchored by the legendary herd-building Anexa 333N. PRESIDENT 64H has about as much length, bone and pin width you can have in a herdsire who is consistently siring low birth progeny both here and at Rhodes Red Angus in South Dakota. He has become a true anomaly and blessing. One of the best footed bulls you'll find anywhere with one of the most proven and predictable maternal pedigrees. The sons are loose hided, easy moving,

strong topped and masculine fronted while the females look to be following the footsteps of Anexa 333N, 271Y, 566C and 294E as simply irreplaceable herd builders! His first son, U2Q Reagan 2116K, topped our sale last year to Ter-Ron Farms. Owned with Rhodes Red Angus.

FULL MONTE was the lead-off Guinness son in 2020 that sold to Valnes Red Angus in SD, where he sired a very stylish and correct set of females with very nice udders. According to Emit, FM still looks amazing with a perfect foot. We have had the same results here. His sons are heavy muscled with end-to-end depth and an explosive birth to weaning growth curve. These are loose hided cattle with tons of blood red hair. His mother is a wonderful donor quality Copenhagen female that resides at Rafael Ramirez Ranch in Mexico. We use FULL MONTE as a sniper through AI and have had amazing results!

LOT 40: An early favorite, 3109L is a phenotypic stunner and performance standout! This masculine, big crested powerhouse combines thickness, muscle shape and stoutness to create a commanding Herd Bull presence! Loose hided and sound from the ground up he weaned off his dam at 946lbs. His fertile, square uddered dam combines the best of the best with Foreigner, Copenhagen and Mission Statement. Add that to the great Misty cow line and you got yourself a never-miss bull maker! Recommended for cows. WR 108 YR 106

 Dam of Lot 41

LOT 41: 3138L checks a lot of boxes - pedigree, phenotype, performance and maternal cow power. This fancy dark red stud is sure to impress with his classic Township skull and cocky Herd Bull presence! Weaning off his recip dam at 818 pounds and having an adjusted yearling weight of 1343 gave a very impressive yearling ratio of 116. His donor dam was a feature cow in last Fall's female sale and was purchased by Lucas Cutler. 142B has put many high-end progeny into production and her mating with Township has been a hit. Recommended for heifers or cows.

STRIKEFORCE is a rare but lethal force in our FROZEN HERD BULL ARSENAL! He was selected by Y-Coulee in 2012 but was injured and lost early in his career. Luckily, we collected him before delivery and his true value lives on! His semen is in very short supply and therefore is only used for embryo transplant. A very limited number of Strikeforce females were in huge demand in the U2 dispersal and many pleas for semen had to be gently denied. We appraise these females

as some of the best in the breed, that are easy to be around with the bred in ability to produce as good as they look! His sons represent the only path to his invaluable maternal genetics!

LOT 53-56: These "fab four" brothers represent a highly anticipated and long awaited maternally charged mating! The long list of donor quality females Strikeforce has sired speaks for itself and reinforces his value as an elite genetic composite. Due to the fact that Strikeforce semen is such a rare commodity, we have waited (impatiently) for the perfect donor to mate with this maternally monumental herd sire. We felt the top direct daughter of the Herd Bull-producing-machine Anexa 271Y would be as close to perfect as we could get! To put it mildly, we are ecstatic with the results, both in these four standouts and in our replacement pen! These powerhouse rugged brothers are designed with structural soundness, added frame and overall body mass in mind. Adding in their mind-bending performance and maternal track record makes this arsenal of flush brothers the blueprint for success! The only challenge will be picking just one? Recommended for cows.

On our bull tour in 2022, ESSENTIAL 1278 was impossible to miss! Not that we needed a full brother to Township and Knockin Boots, but his overall mass, power and soundness in a free moving package were too much to resist. After all, you can never get too much Beauty 113Z influence! Needless to say, this sire group follows suit and is truly unique. The muscle expression and body mass is ridiculous and must be seen in person. Help yourself to these proven pedigreed, yet very unique individuals. ESSENTIAL was unfortunately lost this winter, so these sons are in limited supply.

LOTS 57-58: We could have easily started the book here with these stout, wide and strong topped standouts. Led by 3462, I cannot say enough about this Lakota 687E son. Ultra loose hided, yet clean enough fronted, with as much hip, bone and lower third deep-muscle as you can put in one while still keeping him easy moving and sound. A special-from-the-start Herd Bull that we believe in and plan on using aggressively in the future. Lakota 687E needs no introduction here as she roams the front pastures making tons of friends. Every daughter is in production here at or near the top of their contemporaries with three of the sons being previous high selling features to Y-Coulee, Heart of the Valley and Red Diamond Land & Cattle. Recommended for cows. WR 108 YR 116

LOT 59-61: A trendsetting trio of flush brothers that are massive bodied with unmatched bone and width. The consistency of overall muscle in these three beasts is something we have not seen the likes of in a true angus vigorous package! All three of them are ultra-loose hided and express bold thickness, rump shape, loads of capacity and carry a hip second to none. These flush mates have stood out from a very early age and it has been truly exciting to watch the exploding growth they have shown throughout the summer months right to weaning! Their powerhouse dam Roberta 41F is a maternal masterpiece, a ten across the board! She is a high efficiency, model donor with high fertility and a top production record with many coveted daughters employed at U2Q. She is most famously the dam of FANCY LIKE 511J, that has been very successful at both Peacock Red Angus in Texas and here at U2Q (Lots 44-48). In all our years raising cattle we have never seen performance ratios this impressive and this consistent: 3417L - WR 121, 3420L - WR 126, 3444L - WR 121 YR 106. These three full brothers are built rugged, move freely and are ready to make their mark on the industry! Recommended for cows.

HEADLINER has been our go-to calving ease sire and more! The more we get to know 61G, the more we like him! His calf crop has averaged a gentle 70 lbs. of birthweight with a birthweight index of 96. The skull, muscle shape and thickness his progeny develop is very noteworthy for a calving ease minded bull. Young daughters are entering our herd and are rated very high for udder structure, calve-ability and docility. Grab these user-friendly genetics with confidence and receive superior maternal traits and above average performance with a guaranteed calving ease bonus!

GENESIS is a maternal calving ease giant selected by Canadian Sires and Ter-Ron Farms in 2020 for \$73,000. Not many bulls put so many desirable traits together like GENESIS. His \$55,000 dam is thought by many as Copenhagen's finest daughter, anchoring Genesis and his progeny. Magnum, Mission and Copenhagen are all stacked in his female making pedigree.

Dam of Lots 67-71

LOT 67-71: Five super-sound, well designed flush brothers by the \$73,000 Genesis! These brothers are stacked maternally on both sides of their pedigrees with breed leaders including Magnum, Mission, Copenhagen and Recon. Their donor dam has been stellar, earning her way to the top raising Herd Bulls like U2Q Working Class 59H to Anchor 1 Angus and Towaw Cattle & U2 Headstrong 273G to Elk Meadows. U2 Headstrong 273G progeny were a highlight at the recent successful Rainbow dispersal where 273G daughters were admired and coveted by many astute breeders. Misty 350C is a tremendously fertile and extremely productive donor that has a gentle demeanour, a WI of 103 and an amazing +7.0 CE! Her daughters are standout young females. Put a package of these sons together to take the maternal merit of your herd to new levels in one generation! Recommended for heifers or cows.

PERF	BW	Adj. WW	Adj. YW	WPDA	BW	WW	YW	Milk
	81	842	1388	3.63	+2.1	+25	+50	+26

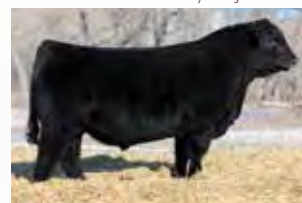

LOT 76: An eye-catching wide pinned Herd Bull with extra hair, muscle shape and bone. His overall cool look and body pattern draws attention while his maternal strength throughout his pedigree solidifies his appeal. Lady 419J is an outcross dream with extra stature and a high-quality udder while standing on near perfect feet! She is a direct daughter of the Lady 123D donor and looks to have a good shot at carrying on the tradition. This Herd Bull is constructed with extra-thickness and structural integrity. Many visitors have found this fella in the pens on tour. Recommended for heifers or cows. YR 102

A feature bull in the 2021 sale season, Granite has impressed us by siring sound, easy doing cattle that have performed both in the feedlot and as mama cows - with his first set of daughters calving this year. Granite possesses a genetic package that combines style, balance and structural correctness in a moderate framed easy fleshing phenotype. Granite is an ET son of 368Z, a Soldier daughter that is impressive with her extra depth and body mass, combined with a beautifully balanced udder. His sire Grit has been exceptional with sons posting growth performance and carcass data that ranks them at the top of the Angus breed.

RED U2 ANEXA 482B
Grandam of Lot 91

RED SUNBERRY TOWNSHIP 200K
Maternal Sib to Anexa 122J

LOT 91: A smooth made, dark red calving ease bull in a medium frame size, with lots of length and smooth shouldered making him a candidate for the heifer pen. His deep bodied, gentle demeanoured, young dam has great udder attachment and has become a pen favorite. She is stacked with maternal greatness with Anexa, Envious, 3Y and 61W all in the pedigree. Recommended for heifers or cows. WR 107

 G A R OBJECTIVE N906

GUARANTEE is a 6.5 framed masculine Herdsire that exudes Herd Bull presence with extra length of body, added base and top width with true muscle expression and tremendous body depth. With his pedigree, performance and phenotype, and by the looks of this sire group, we feel he may be perfect blend of multi-trait balance.

 U-2 ERELITE 1X

LOTS 107-110: An exceptional flush that yielded FOUR off the charts young Herd Bulls that bring together dominating CE performance, next level phenotype and superior genetic profiles. They are backed four generations of world class donor cows including the immortal U2 Erelite 109Z - who has become one of the most influential cows we have ever produced. Their dam, Erelite 6H is a breath taking up and comer that we are banking on to take us into the future! She is angular with incredible length, softness, and unmatched presence. Like her dam, she is beyond compare for teat spacing and size, udder attachment and overall soundness. We are super excited about these FOUR as they have had "the look" since a very young age and believe they have taken their popular sires' attributes to an amplified level with the Erelite cross. With so many positives, the biggest challenge will be choosing a favorite, but rest assured, the patented maternal advantages assembled here make any of the FOUR undeniably irresistible! Recommended for heifers or cows.

The \$290,000 high selling phenom in the 2020 U2 Bull Sale. SHAMELESS has matured into an amazing mature breeding bull and his progeny have transcended our expectations in quality, performance and calving ease ability. His young daughters milking are absolutely stunning which is not surprising with the potent maternal influence of both Rosebud 157C and Coleman Donna 714. Early visitor's consensus indicates SHAMELESS may have outbred himself on one of these sons! Unfortunately, SHAMELESS seriously injured his leg this winter so these limited genetics may be priceless.

LOT 112: MILESTONE is a show stopping individual that will carry on his sire's amazing phenotypic legacy! Like Shameless, we feel MILESTONE is in a class of his own with his massive crest, huge top, expansive hip, excellent foot and immaculate hair coat. He is softer made with the same standout individuality, depth of flank and maternal backing beyond compare! Ranking in the top 1% for CE and MCE with a +14.0 and a -0.8 on birth seals the deal on this phenom. On the topside MILESTONE is absolutely loaded with world class donors including Rosebud 157C, Donna 714, Rosebud 381Z, Donna 386 and Rosebud 141T. His mama Lenore 215E is a feminine, massive bodied, impeccably uddered typical Coalition female with an influential future ahead of her. We predict the influence MILESTONE will have in the future will be commemorative! Recommended for heifers or cows. WR 102

The lead off, top selling bull at SAV in 2020. He is a performance powerhouse and dominating sire of extra growth, volume, muscle and pounds. His sons are big, stout, power bulls with muscle, rib shape and pay weight. While the daughters are super productive, broody and voluminous with striking maternal presence and high quality udders.

MR was our pick of the SAV calf crop in 2019. He is a super correct, stout and soft made son of the legendary Blackcap May 1808 that actually gained weight while breeding his first season. This low birth, big footed Herd Bull consistently adds pounds and character while fixing skull shape. He has sired many high dollar black bulls as well as replacements we are proud to have raised. His daughters are the maternal front pasture kind with femininity, angularity and easy fleshing ability.

LOT 135-136: Double feature flush brothers that are full sibs to the high selling and successfully shown Big Muddy 485! The Herd Bull credentials here are obvious - pedigree power, phenotype, performance and proven maternal excellence. Missouri River is a mainstay here for many reasons both in the bull and replacement pens as they display true angus character in an easy fleshing, fault free package. Those that have toured our herd and Big Coulee Angus's know the MR effect! Rosebud 381Z progeny continues to rise to the very top year after year and include Don Juan, Big Muddy, and of course the famous and possibly most recognized U2 bred cow - Rosebud 157C! Her second to none production record is too long to list here and dollar value per calf easily out averages any cow we've raised! With the backing of three generations of world-class donors on both sides of their pedigree, the guesswork has been eliminated here. On their own merit these two prospects are more than worthy of their lineage and represent a true opportunity! Recommended for well developed heifers and cows.

LOT 142: A big-time prospect that we have been watching for a while. He offers a perfect balance of muscle shape, thickness and volume with a lower birth resume. A genetic trendsetter created by mating the super stylish, big-bodied President 60H to Rebello 400C; one of the most respected and massive bodied donors on the place. 400C and her dam 278Z are both top end Rebello cows here that strive as consistent fertile producers while adding bone, depth of heel and length of spine. Unique, outcross dual purpose genetics backed by multi-generations of donor cows! Buy with confidence!! Recommended for heifers or cows. WR 101 YR 108

LOT 143-144: Have a look here, two outcross flush brothers with so many positives to fulfill your calving ease needs - True peas in a pod! They are consistently sound with exceptional style and an eye-appealing muscle pattern. Their proven and prolific dam 350C is a never-miss donor who has many great sons working for breeders and top commercial cattlemen across the country. Her extremely gentle nature paired with her fleshing-ability, stoutness and near perfect foot structure put her in a league of her own. We have two full sib sisters to these bulls with calves on the ground that are defiantly worth a look! Recommended for heifers or cows.

72H is the lead off \$30,000 Herd Bull of an extremely successful flush in '21. His dominant thickness, stout rump and overall completeness make him hard to resist. His outcross maternally stacked lineage, with the bonus of having a world class donor like Anexa 439A as his dam, make him a "no-brainer"! Look to this sire group for something genetically fresh and different with the built in performance and maternal stability you have come to expect!

LOT 145: 3128L is a big bodied, high-capacity cowman's bull with growth and performance numbers that push him near the top. His extra frame and wide top helped earn him actual weaning and yearling weights of 962 pounds and 1452 pounds with ratios of 115 and 116. This stud will add pounds and performance to your calf crop and with his great foot and leg structure he will be able to walk those big pastures for years to come. His consistent dam is building a solid production record raising two sale bulls now and a retained daughter who has a bull in this sale as LOT 64. This performance is not surprising as mama's a full sister to Anexa 271Y. Recommended for cows.
